

K12 Schools-Co-Curricular Policy (2026-27) Extracurricular activities

K12 schools offer all children the opportunity to take part in Extra Curricular Activities out of regular school hours.

ECA enriches & enhances the formal curriculum, allows for relaxation and enjoyment, provides opportunities for social interaction, develops skills, values and encourages respect for others.

Extracurricular Activity Guidelines for K-12 Schools

- All students enrolled in the online school are eligible to participate in extracurricular activities.
- Students must adhere to virtual meeting schedules and deadlines as communicated by the activity leader.
- Regular attendance is crucial for maintaining engagement and progress. Notify the activity coordinator of any planned absences or technical issues.
- Active participation in discussions, projects, and assignments is expected.
- Students must follow the school's code of conduct during all virtual interactions, demonstrating respect and professionalism.
- Emphasis on digital etiquette and constructive communication is essential.
- Ensure that personal information and online interactions are conducted safely and securely. Follow all privacy guidelines provided by the school.
- Regularly check the online platform or email for updates, announcements, and changes related to the activity.
- Maintain clear and respectful communication with peers and instructors via online tools such as forums, chat rooms, or email.
- Show commitment by participating in virtual sessions, completing assignments, and contributing to group projects.
- Manage your time effectively to balance extracurricular activities with academic responsibilities.
- Use feedback to enhance personal performance and engagement in the activity.
- To withdraw from an activity, notify the activity coordinator.
- Parents should support their child's participation by staying informed through online updates and being involved in virtual meetings when possible.
- Address any concerns or questions with the activity coordinator or school administration.

Holistic Development through Global Clubs at K12 Schools

At **K12 Schools**, a division of **EDOVU VENTURES PRIVATE LIMITED**,

we are steadfast in our commitment to the holistic development of our students. Our Global Clubs are pivotal in nurturing each child's personality and are integral to our educational framework. These clubs, selected from diverse fields, are designed to enhance students' skills and boost their academic and personal growth. Each club offers a unique set of activities aimed at:

- **Developing Social and Intellectual Skills:** Through collaborative and interactive projects, students learn to work effectively with peers, think critically, and solve problems creatively.
- **Cultivating Moral and Cultural Values:** Clubs provide opportunities for students to explore different cultures, engage in ethical discussions, and develop a strong sense of values and empathy.
- **Supporting Overall Personality Development:** Activities are tailored to foster confidence, leadership, and personal growth, contributing to a well-rounded educational experience.

By participating in these clubs, students not only enhance their academic performance but also develop a range of skills that are essential for their future success. Our Global Clubs are a cornerstone of our approach to education, ensuring that every student has the opportunity to grow, learn, and thrive in a supportive and dynamic environment.

- **Creative Crusade - Co-Curricular Club**
The Co-Curricular Club is celebrating drama, dance, and creativity through a vibrant range of activities. Students are engaging in Drama Exhibitions, Dance Performances, Play Productions, and more. They are creating memorable experiences and showcasing their talents on a virtual stage.
- **Tech Ninja- IT Club**
The Tech Ninja Club offers a diverse range of engaging activities designed to ignite students' passion for technology and creativity. Our dynamic lineup promises a year full of learning, exploration, and fun, featuring: **IT Quiz, Coding Workshops, IT Treasure Hunt, Meme**

Creation, Basic Computer Literacy Classes, School Magazine Contributions.

- **Mighty Lingual - Debate Club**
The Debate Club is offering intellectually stimulating activities, including Role-Play Debates, discussions on National and International Topics, and Debate Plays. Students are enhancing their argumentative skills and participating in debates that challenge perspectives and inspire change.
- **The Mathletics - Maths Club**
The Maths Club is fostering a passion for numbers through various activities. Students are taking part in Maths Games, exploring Formulae Books, engaging in Quizzes, Codebreaking, Maths Investigations, and Problem Solving. They are embracing mathematical challenges and discovering the beauty of numbers.

- **The Research Mavericks - Science Club**

The Science Club is a hub of discovery and experimentation.

Students are involved in Model Preparation, Simple Experiments, Science Experiments, and Scrapbook Projects. They are igniting their curiosity and exploring the marvels of science.

- **Global Taste Squad - Food/Cooking Club**

The Food Club is embarking on a flavourful journey with activities including Seasonal Food Celebrations, Cooking Without Flame, Bakery and Cake Making, Chaat Making, and more. Students are exploring culinary arts and enjoying creative cooking experiences.

- **The Vidy Sporta - Sports Club**

The Sports Club is promoting wellness and mental acuity through Online Yoga Sessions, Online Chess Tournaments, Online Games, Online Sports Challenges, and Puzzle Sudoku Challenges. Students are participating in virtual activities that support fitness and fun.

- **The Green Guardians- Eco Club**

The Green Guardians Eco Club is abuzz with enthusiasm, driving green initiatives that aim to foster a more eco-conscious and environmentally friendly school community. Committed to protecting our planet, we are actively engaged in various impactful activities. Our current efforts include waste material management, planting projects, creative poster making, and a range of eco-friendly activities.

- **GROW AND KNOW - G.K. CLUB**

The GK Club is dedicated to broadening students' horizons and sharpening their intellect through engaging and informative activities. Ready to explore the realms of knowledge, the club offers a vibrant array of experiences, including general awareness, current affairs, and quizzes. The GK Club is a hub of exploration and enlightenment, designed to keep minds sharp and curiosity alive. With endless possibilities for discovery, the world awaits the insights and innovations that our students will uncover.

- **The Toastmasters - Oratory Club**

The Oratory Club is dedicated to developing public speaking skills.

Students are engaging in Public Speaking Workshops, Career-Oriented Sessions, and Future Training. They are building confidence and refining their oratory abilities on the virtual stage.

Our co-curricular programs are meticulously crafted to foster innovative thinking and creativity, offering students ample opportunities to discover and showcase their hidden talents. These enriching experiences are integral to providing a well-rounded education. Below is a detailed overview of the key activities currently being offered:

1. Yoga

Our Yoga program emphasizes physical fitness, mental well-being, and relaxation. Students engage in various yoga poses and breathing exercises designed to improve flexibility, concentration, and stress management. This program aims to promote overall health and balance in students' lives.

2. Music and Dance

K12 Schools provides a vibrant music and dance curriculum that encourages artistic expression. Students participate in a range of activities including instrumental music, vocal training, and various dance styles. This program fosters creativity, rhythm, and coordination, contributing to a rich cultural education.

3. Aerobics

Our Aerobics program offers dynamic and engaging workouts designed to improve cardiovascular health, strength, and stamina. Students participate in structured aerobic exercises that enhance physical fitness while making exercise enjoyable.

4. Presentation and Learning

The Presentation and Learning module is designed to develop students' public speaking and presentation skills. Through various activities and projects, students learn to articulate their ideas clearly, present confidently, and engage effectively with their audience.

5. Socio-Emotional Learning (SEL)

The Socio-Emotional Learning program focuses on developing students' emotional intelligence and interpersonal skills. Through structured activities and discussions, students learn to manage emotions, build positive relationships, and make responsible decisions.

6. Presentation and Global Celebration

This program integrates global awareness and cultural appreciation into students' learning experiences. Students participate in presentations and events that celebrate diverse cultures and global achievements, fostering a sense of international community and respect.

7. Art and Craft

The Art and Craft program provides students with opportunities to explore various artistic mediums and techniques. Students engage in creative projects that enhance their artistic skills and allow them to express their imagination through visual arts.

8. Coding

Our Coding program introduces students to the fundamentals of computer programming. Through hands-on coding exercises and projects, students develop problem-solving skills and gain a foundational understanding of software development and digital technology.

9. Personality Development Class

The Personality Development class focuses on enhancing students' personal growth and confidence. Activities in this program include public speaking, leadership skills, and social etiquette, aimed at building a strong and positive personal identity.

10. Beyond Talk series

Providing equal opportunities for students from Grades 3 to 12 to speak, debate, and lead talk shows, helping them build confidence, resilience, cultural awareness, and emotional intelligence. Through expert guidance and interactions with international speakers, we aim to enrich student experiences and strengthen their overall learner profile.

Class Conglomerates at K12 Schools

At **K12 Schools**, we implement a comprehensive class conglomerate approach tailored to each grade level, ensuring that our curriculum addresses the developmental needs of students from foundation through senior years. Our grade-wise activities are designed to foster holistic growth and prepare students for future academic and personal success.

CONGLOMS

LKG/UKG

● Sound Safari

a structured activity or exercise that focuses on helping learners practice and reinforce their understanding of phonics—the relationship between sounds (phonemes) and their corresponding letters or letter combinations (graphemes). Phonic drills often involve repetitive practice of sounds, letter patterns, and decoding skills to improve reading and pronunciation. It's a foundation for advanced skills, helps in Cognitive Development, Enhanced Spelling, effective for developing essential literacy skills, especially in early education, and helps learners gain a solid foundation in reading and language.

● Timeless Tales

A structured activity where stories are read aloud to children or learners, often accompanied by illustrations. It enhances vocabulary, listening skills, and imagination. Storytime fosters emotional development, promotes social interaction, and helps children understand different perspectives, building a love for reading and communication.

● Reading Realms

Dedicated periods where individuals engage in reading books, articles, or other texts. It enhances vocabulary, comprehension, and critical thinking skills. Regular reading improves focus, boosts imagination, and fosters a love for learning. It also helps in reducing stress and improving mental well-being.

● Planet Harmony

Planet Harmony is an initiative focused on promoting environmental awareness, sustainability, and global cooperation. For students, it teaches the importance of protecting the Earth, understanding diverse cultures, and working together for a better future. It nurtures responsibility, critical thinking, and encourages positive action toward a healthier planet.

● Discovery Time

It is an activity where pre-primary children bring an item and talk about it to their class. This fosters confidence, communication skills, and creativity. It encourages listening, enhances vocabulary, and builds social interaction. Additionally, it supports emotional development by allowing children to express personal interests and experiences.

GRADE 1 & 2

● Digital Discovery

Introduces students to technology, enhancing their learning through interactive apps, educational games, and online resources. Activities like digital storytelling, virtual field trips, and coding basics foster creativity and problem-solving. It improves digital literacy, engagement, and prepares students for future learning in a tech-driven world.

- **The Journey Within**

Helps students develop focus, emotional regulation, and self-awareness. Benefits include improved concentration, reduced anxiety, better behavior, and enhanced emotional intelligence, fostering a positive, calm learning environment.

- **Reading Realms**

Dedicated periods where individuals engage in reading books, articles, or other texts. It enhances vocabulary, comprehension, and critical thinking skills. Regular reading improves focus, boosts imagination, and fosters a love for learning. It also helps in reducing stress and improving mental well-being.

- **Sound Safari**

A structured activity or exercise that focuses on helping learners practice and reinforce their understanding of phonics—the relationship between sounds (phonemes) and their corresponding letters or letter combinations (graphemes). Phonic drills often involve repetitive practice of sounds, letter patterns, and decoding skills to improve reading and pronunciation. It's a foundation for advanced skills, helps in Cognitive Development, Enhanced Spelling, effective for developing essential literacy skills, especially in early education, and helps learners gain a solid foundation in reading and language.

- **Green Innovators**

It is an initiative focused on promoting environmental awareness, sustainability, and global cooperation. For students, it teaches the importance of protecting the Earth, understanding diverse cultures, and working together for a better future. It nurtures responsibility, critical thinking, and encourages positive action toward a healthier planet.

Grade 3,4,5

- **Digital Citizenship**

Responsible online behaviour, including internet safety, respect, and digital ethics. Activities like discussing privacy, cyberbullying prevention, and positive online communication fosters healthy digital habits. Benefits include enhanced online safety, critical thinking, and social responsibility, preparing students to navigate the digital world responsibly.

- **Mindscape AI**

Introduces them to artificial intelligence through interactive activities like

problem-solving, coding, and virtual simulations. It fosters critical thinking, creativity, and tech literacy. Benefits include enhancing logical reasoning, understanding AI concepts, and encouraging curiosity, all while building foundational skills for future learning in technology.

- **Emotional Intelligence**

It focuses on recognizing, understanding, and managing emotions. Activities like role-playing, group discussions, and reflection help students develop empathy and self-regulation. Benefits include improved social skills, better conflict resolution, enhanced self-awareness, and stronger relationships, fostering a positive and supportive classroom environment.

- **Climate & Sustainability**

Climate & Sustainability education for grade 4 students introduces concepts like climate change, conservation, and eco-friendly practices. Activities such as recycling projects, nature walks, and discussions on renewable energy help foster environmental awareness. Benefits include promoting responsibility, critical thinking, and a sense of global citizenship to protect the planet.

- **Cosmic Discoveries**

The students explore space, planets, stars, and the universe. Activities like stargazing, learning about astronauts, and interactive space simulations ignite curiosity. Benefits include developing scientific thinking, creativity, and problem-solving skills, while fostering a sense of wonder and appreciation for the vastness of the cosmos.

Grade 6,7,8

- **Digital Citizenship**

Responsible online behaviour, including internet safety, respect, and digital ethics. Activities like discussing privacy, cyberbullying prevention, and positive online communication foster healthy digital habits. Benefits include enhanced online safety, critical thinking, and social responsibility, preparing students to navigate the digital world responsibly.

- **Mindscape AI**

Introduces them to artificial intelligence through interactive activities like problem-solving, coding, and virtual simulations. It fosters critical thinking, creativity, and tech literacy. Benefits include enhancing logical reasoning, understanding AI concepts, and encouraging curiosity, all while building foundational skills for future learning in technology.

- **Global Synergy**

Global Synergy for middle school students focuses on collaboration, cultural understanding, and addressing global challenges. Activities like group projects, virtual exchanges, and community service promote teamwork and

empathy. Benefits include enhanced communication skills, global awareness, and the ability to work together across differences, fostering responsible global citizenship.

- **Public Expression Lab**

The students develop communication, creativity, and self-expression. Activities like storytelling, presentations, and writing prompts enhance confidence, vocabulary, and critical thinking. Benefits include improved articulation, enhanced writing skills, and the ability to express ideas clearly, which boosts overall academic and social growth.

- **Global Entrepreneur**

Global Entrepreneur for middle school students introduces business concepts, innovation, and global markets. Activities like creating business plans, market research, and pitching ideas cultivate creativity and problem-solving. Benefits include fostering critical thinking, financial literacy, teamwork, and a global mindset, preparing students to navigate future entrepreneurial opportunities. Grade 9-12

- **Digital Citizenship**

Digital Citizenship for senior school students focuses on responsible online behaviour, privacy, and cyber ethics. Activities like creating digital portfolios, participating in online discussions, and learning about media literacy promote safe internet use. Benefits include improved critical thinking, online safety awareness, and responsible digital communication, preparing students for a connected world.

- **Model United Nations**

Model United Nations (MUN) for senior school students simulate international diplomacy, where students represent countries and debate global issues. Activities include research, public speaking, and negotiation. Benefits include enhanced communication, critical thinking, leadership skills, and a deeper understanding of global affairs, fostering global awareness and teamwork.

- **Global Entrepreneurship and Management**

Global Entrepreneurship and Management for senior school students involves activities like business plan creation, market analysis, and leadership

exercises. Students learn about global markets, innovation, and financial strategies. Benefits include fostering entrepreneurial thinking, leadership, teamwork, and a strong understanding of global business dynamics, preparing students for future careers in management.

- **Student led Conference**

Student-Led Conferences in senior school involve students presenting their academic progress, goals, and achievements to teachers and parents. Activities include self-reflection, goal-setting, and portfolio presentations.

Benefits include enhanced communication skills, self-awareness, responsibility, and ownership of learning, empowering students to take an active role in their educational journey.
